

Diabetes 2020 Seminar

A New Vision for Diabetes Care and Education Specialists

Seminar Overview

The diabetes landscape is undergoing a major shift.

There is a new call to action for Diabetes Care and Education Specialists.

As recognized experts in the field of diabetes, we are called to take a leadership role in improving diabetes care and outcomes in three major areas:

- Population Health
- Cardiovascular Risk Reduction
- Leveraging Technology

Keeping the Future in Focus

The framework for this advanced level interactive seminar incorporates the latest ADA Standards of Care coupled with the new practice vision outlined by the AADE.

Coach Beverly has created a one-day seminar that allows participants to delve deep into the topics that are most pressing for diabetes care now and in the future.

Who Should Attend? This course is designed for Diabetes Care and Education Specialists interested in taking a leadership role in the future of diabetes.

Course Faculty: Beverly Thomassian RN, MPH, CDE, BC -ADM. Beverly is an entrepreneur, educator and diabetes advocate. She believes that Diabetes Care and Education Specialists have a remarkable capacity to improve outcomes with individuals and in communities. She is excited to promote expansion of our roles along with increased recognition of our

diabetes expertise.
