Why Take the CDCES Exam?

- Demonstrates to people with diabetes, employers, and third party payers that the CDCES possesses distinct and specialized knowledge, thereby promoting quality of care for patients with diabetes.
- CDCES is the recognized standard for competence in diabetes self-management education.
- Given the diabetes epidemic, access to CDCESs is critical.

What is a CDCES?

A Certified Diabetes Care and Education Specialist is a health professional who possesses comprehensive knowledge of and experience in diabetes prevention, prediabetes, and diabetes management.

The CDCES educates, supports, and advocates for people affected by diabetes, addressing the stages of diabetes throughout the lifespan.

The CDCES promotes self-management to achieve individualized behavioral and treatment goals that reduce risks and optimize health outcomes.

2020 - Professional Practice Experience

Must meet all

- A minimum of two years (to the day) of professional practice experience in the discipline under which one is applying for certification AND
- Minimum of 1,000 hours of professional practice experience within the past 4 years in diabetes self-management education with a minimum of 40% (400 hours = about 8 hrs a week) accrued in the most recent year preceding application, AND
- Minimum of 15 clock hours of continuing diabetes education within 2 years prior to applying for certification.
Professional Practice Definition

- Program development
- Program management
- Public health/community surveillance
- Volunteer activities
- Diabetes related research
- Clinical roles in diabetes industry
- Case management
- Professional education
- Consultant roles to industry or other providers

Professional Degree, DSME Practice Hours, plus CE

- Only experience occurring AFTER completing your professional degree can be counted toward the Professional Practice Experience requirement.
- Need 1000 hours of DSME Practice Hours
- If on Unique Qualifications Pathway, need 2000 hours of DSME

Unique Qualifications Pathway –

- Designed for health professionals holding an advanced degree in a health related area/concentration
- This pathway has different eligibility requirements and involves a “pre-application” process plus 2000 hrs DSME.
- For more: info@CBDCE.org or call 877-239-3233
Quick Question – Multiple answers

The CDCES exam includes which of the following philosophies?

a. Motivate people to make lifestyle changes
b. Empower individuals to improve diabetes self-management
c. Consider individuals' needs, goals and life experiences
d. Help all people with diabetes achieve an A1c less than 7%
e. Collaborate and provide ongoing care

Diabetes Self-Management Education and Support (DSMES)

- All people with prediabetes and diabetes should participate in DSMES to facilitate the knowledge, skills, and ability necessary to self-manage their diabetes.
- DSMES provides support to implement and sustain skills and behaviors needed for ongoing self-management.
### Diabetes Self Management Ed Benefits

- Improves knowledge
- Lowers A1c
- Lose weight
- Improved quality of life
- Reduced all cause mortality
- Reduced health care costs

### Diabetes Self Management Ed Benefits

- Increased primary care and preventive services
- Less frequent use of acute care and hospital admissions
- More likely to follow best practice recommendations (esp those with Medicare)
  - Only 5-7% of Medicare recipients receive DSME

### DSME Overall Objective

- **Participant Centered**
- Support informed decision making
- Problem solving
- Active collaboration to improve clinical outcomes and quality of life
- Avoid judgmental words that increase feelings of shame and/or guilt
- Choose words and phrases that put people first
- Avoid shame and blame
Poll Question
Which phrase best represents the principles for communicating with and about people living with diabetes?
A. John is non-adherent to his insulin regimen and is not taking his insulin as prescribed
B. John is in denial about his diabetes and frequently skips his insulin
C. John is taking his insulin about 50% of the time
D. John doesn’t seem to care about his diabetes control at this time

Language of Diabetes Education
Old Way
- Control diabetes
- Test BG
- Patient
- Normal BG
- Non-adherent, compliant

New Way
- Manage
- Check
- Participant
- BG in target range
- Focus on what they are accomplishing

What we say matters

Free Resources – Free Webinars

Free Webinar & Resources

What we say matters.
As educators, advocates, spouses, friends, and providers, our choice of language can deeply affect the self-care of people living with diabetes every day.

The language used in the healthcare setting is enormously important in determining the success of our interventions and long-term relationships.

Thoughtful communication provides a sense of support and empathy and directly promotes people with diabetes toward high satisfaction and success.

Based on powerful research, there is growing awareness that within diabetes education and support, how we speak can lead to the approaches we take when providing services to people with diabetes.

Let’s get people up by choosing language that is non-judgmental and person-centered.
Enjoy our FREE Language and Diabetes FREE Webinar to learn more and build your communication to the next level!
**Definition of Diabetes Education**

- It is a component of a comprehensive plan of diabetes care.
- The process incorporates the needs, goals and life experiences of the person with prediabetes or diabetes and is guided by evidence-based standards.
- Should include practical problem-solving approaches and collaborative care, address psychosocial issues, lifestyle change, and strategies to sustain self-management.

**Assessment:** Participant’s needs are identified with assessment & support of educator

**Education Plan:** Individualized plan that reflects participant’s self-management goals, current evidence and practice guidelines. Includes criteria for evaluating outcomes.

**Interventions:** The educator delivers options to assist participants in meeting self-management goals.

**Ongoing Support:** The educator provides options for ongoing support and resources. The support option is selected by the participant to meet self-management goals.

**Participant Progress:** Educator monitors and communicates whether participant is achieving self-management goals and other outcome(s) to evaluate effectiveness of interventions. Additional assessments are based on participant’s needs across lifespan.

**Documentation:** Assessment, education plan, intervention, and outcomes are documented in participant’s health record.

**Services Development/Administration:**
Development and administrative activities performed as part of DSMES services.
Critical Points to Provide Self-Management Education

- At diagnosis
- Annually to assess education, nutrition and emotional needs
- When new complicating factors arise that influence self-management
- Transitions in care

Applying to take the CDCES Exam

At the time of your online application you will receive:
- On-line notification of either approval
- Or that you have been selected for audit
- If you are submitting a paper application, call AMP if it has been more than 4 weeks since application was mailed and you have not received notice of receipt or audit. Call the AMP at (913) 895-4600

What is included in audit if requested?

- Licensure
- Documentation of Professional Practice Experience –
  - A journal of weekly hours of providing DSME
  - Supervisor to verify
- CE course verification
- Employment verification signed by supervisor
Test Taking Window

- The exam is administered on an ongoing basis.
- Once application approved, candidates must schedule their testing appointment within a 90 day window on a date of their choosing.
  - Schedule an appointment to take the examination on a first-come, first-served basis through AMP’s online scheduling system.
  - See application booklet for more details.

When will I get my results?

- You will receive your test results the same day.
- You can retake the test as many times as needed.
- Cost –
  - 1st time $350
  - Renewal - $250

Scoring the Exam

- Reported as raw and scaled scores.
  - Raw score: number of right answers.
  - Scaled score: statistically derived from the raw score.
- Total score determines pass/fail and is reported as a scaled score ranging between 0 and 99.
  - To pass: 70 scaled score units.
CDCES Exam First Time Pass rates

- 2009 – 69% (test changed based on work study analysis and computerized)
- 2010 – 69%
- 2011 -65%
- 2012 – 63.5%
- 2013 – 67 and 69%
- 2014 - 66 and 67%
- 2015 - 62 and 64% (test updated)
- 2016 – 67%
- 2017 – 66%
- 2018 – 67%

Exam Details

- Questions are linked directly to a task or tasks.
- Each question is designed to test if the candidate possesses the knowledge necessary to perform the task or has the ability to apply it to a job situation.
- 25 of the 200 questions are new - but are not counted in the determination of individual examination scores.

Quick Question – Multiple answers

What are some study strategies that will help you succeed?

a. Focus your study time on topics you are confident in.
b. Take as many practice tests as possible
c. Read as many books on diabetes as possible
d. Develop a study plan and block off study time.
e. Teach the content to someone else
Overview of CDCES Exam

- Composed of 200 multiple-choice, objective questions with a total testing time of four (4) hours.
- Based on job analysis completed in 2018, which surveyed diabetes educators about the tasks they performed.
- Exam outline updated in July 2019

Exam Content - Assessment

- Assessment (59)
  - Learning (19)
  - Health and Psychosocial Status (19)
  - Knowledge and Self-Management Practices (21)
Exam Content - Intervention

- Intervention (89)
  - Collaboration with Individual, Family, Caregiver, and Healthcare Team (18)
  - Educate based on individualized care strategies (35)
    - Meds, MNT, acute and chronic complications, problem solving
  - Evaluate, Revise and Document (26)
  - Follow-up, support and referral (9)

Exam Content – Disease Management

- Education and Program Standards (28)
  - Education services standards
  - National Standards for Diabetes Self Management Education and Support (8)
  - Clinical Practice (18)
    - Inpt and Outpt Standards for ADA, AACE
  - Promote Diabetes Advocacy (2)

For detailed outline look in Testing Handbook

Linked-In Post directly from CBDCE
posted on Linked In 2015

- Exam questions are tied directly to a task on the exam content outline.
- A helpful idea- think outside your area of practice or population when reviewing the exam content outline
  - work with an adult population - think about pediatrics or gestational –
  - or mainly Type 1 population - think about Type 2 population.
- Look for resources (whether say c.e. activities or hard copy/online resources) that will help you address those areas of weakness.
- Hope that helps and best of luck!

Taking the Exam

- Questions
- Answers
- Pitfalls

Reading too Fast Pitfalls

- Choosing a “good” answer, but not the right one for the stem
  - key intent of question
- Failing to read an important words (always, never, most, probably, usually)
- Choosing an answer you did not understand because the others seem too easy
Empowerment Errors

- Focusing on the medical need rather than the psychosocial needs
- Failing to keep in mind the patient’s characteristics (age, type of diabetes, etc.)
- We are supporting efforts toward behavior change.

Thinking Pitfalls

- Imagining a right answer and getting thrown when it is not among the choices
- Over thinking question/answers
- Choosing an answer that did not fit the situation
- Using the goals in your clinical setting. Focus on national goals.

Take a Practice Test – Learn how to “work” test questions

- Weed through the details
- Make sure you REALLY understand key intent of question
- Find the stem
  - Identifies key intent of the question
- Read all the options or answers
- Eliminate obvious wrong answers
- Select BEST option
Look for Clues in The Answers

- Answers with the following words are usually incorrect: always, never, all, none, only, must, and completely
- Answers with the following words are usually correct: seldom, most, generally, tend to, probably, usually

Getting to the Right Answers

- Do not leave any answers blank
- Look for clues in the question
- Don’t get lured in by juicy answers
- Avoid imposing your life experience into the question/answer
- Keep breathing – Get up and move
- Even simple math problem should be worked out on scratch paper

Three Types of Questions

- Recall – facts, principles, procedures
- Application – ie – application of knowledge that varies based on pt characteristics
- Analysis – integration or synthesis of a variety of concepts or elements (ie evaluating complex problems with many variables)
Sample Question 1

- A patient is admitted to the hospital with elevated glucose levels with a strong family history of diabetes. She is started on fluid replacement and is placed on a clear liquid diet. Her father is in the room and is very concerned. Which of the following would suggest a diagnosis of new onset type 1 diabetes vs type 2 diabetes?
  
  A. Hyperglycemia  
  B. Polyuria  
  C. Ketosis  
  D. Polydipsia

Sample Question 2

- MJ has type 1 diabetes and wants to know the possible complications that can result from hyperglycemia during the first trimester of pregnancy. Which of the following complications can result from 1st trimester hyperglycemia?
  
  A. Macrosomia  
  B. Vascular defects  
  C. Shoulder dystocia  
  D. Spina bifida

Vignette Style Question

- Read the following vignette to answer the next 3 questions.
  
  A 47 yr old man with newly diagnosed type 2 diabetes. Additional known information.
  
  - Married, with 2 teenagers  
  - Professor with a BMI of 32  
  - Started on Metformin 500mg BID  
  - Father died of kidney failure secondary to diabetes
Vignette Style Question 1

Given what you know about this person, what emotions would you expect him to express?
A. Fear of hypoglycemia
B. Reluctance to start on insulin
C. Panic disorder
D. Fear of complications

Vignette Style Question 2

What is most likely to be a potential barrier to lifestyle change?
A. Difficulty exercising
B. Excessive alcohol intake
C. Teenage children
D. Long work hours

Vignette Style Question 3

He requests information about healthy eating. Which meal planning approach best suits this individual until he can see a registered dietitian?
A. Explore possibility of metabolic surgery
B. Eliminate all concentrated sweets
C. Eat 3 meals a day with snacks in between
D. Mediterranean Diet
Sample Question 3

Metformin is an antidiabetic agent different than that of sulfonylurea drugs. Some features of the drug are that it:

A. Stimulates insulin secretion and increases hepatic glucose production.
B. Causes hypoglycemia
C. Lowers hyperglycemia in persons with diabetes, but does not lower blood glucose levels in people without diabetes.
D. Results in weight gain and increase in plasma glucose levels.

Med and Insulin PocketCards

NEW Accordion 2-sided PocketCards

DiabetesEd.net

Sample question 4

A person with type 2 is on a twice daily dose basal/bolus insulin and complains of waking up with morning headaches. If the fasting capillary BG is 291, this person should be advised to:

A. Increase evening dose of basal insulin
B. Increase morning dose of bolus insulin
C. Check 3am blood glucose
D. Eliminate bedtime snack

Study Habits
- Find your best time of day to study
- Determine your learning style
  - Auditory – discussion, study groups, tapes
  - Visual – books, handouts, notes, videos
  - Kinesthetic – workshops, demonstration
- Set up a study space
- Set up a study plan
  - Schedule your time
  - Make an appointment with yourself

Study Group
- Set a location, time and schedule
- Have an agenda
- Set the rules
  - Everyone does their share
  - Everyone commits to attend
- Can be a great source of moral support and can help decrease test anxiety

Study Time
- Review of what you know: 30 to 40%
- Learning new materials: 60 to 70%
- CDCES prep courses, flash cards & sample tests
- Teach the content to someone else
- Use down time/waiting time productively
Knowledge = Confidence

- Most important aspect of test taking
- Knowing the content will improve your confidence
- As you study your knowledge base expands

213 Test Questions

DiabetesEdUniversity.com
$49 for both (208 Questions)

Combating Test Anxiety

- Positive thinking and affirmations
- Use relaxation techniques we teach pts
- Take practice exam
- Rest well night before
- Know how to get to test site
- Arrive at exam room early
- Know your stuff – self-study or courses
Diabetes Ed Course – Earn 32 CES

- 20 CEs for the Virtual Program plus
- 13 Bonus Online Courses, Earn 13.0 CEs –
- Content that best helps you succeed
- Instructors: Coach Bev, Diana Isaacs, Dana Armstrong

CDCES Success Page

Here are some of our CDCES Success Stories!

“I was so thankful to have those resources to prep for my CDCES exam. I started on the first day and the group is overwhelming, that I honestly did not know where to start. Beverly’s program maps out a new study path and provides much-needed resources. For me, having the videos and quiz preparatory week key to helping me remember the knowledge. Beverly has an excellent teaching style, and an encouraging spirit. The sample questions were so similar to the actual test questions. I highly recommend this program and have suggested it to several of my peers. Thank you, thank you, thank you, Beverly!”

Lara Hurley, RN, BSN, CDCES
