## Supplement Safety Ratings from Cleveland Clinic

### Safety Rating Color Key

**Recommended:** Several well-designed studies in humans have shown positive benefit. Our team is confident about its therapeutic potential.

**Recommended with Caution:** Preliminary studies suggest some benefit. Future trials are needed before we can make a stronger recommendation.

**Not Recommended-Evidence:** Our team does not recommend this product because clinical trials to date suggest little to no benefit.

**Not Recommended-High Risk:** Our team recommends against using this product because clinical trials suggest substantial risk is greater than the benefit.
