

9th Annual
BECOMING A DIABETES EDUCATOR
Program

University of California, San Francisco, CA
January 24-25, 2015 & February 21-22, 2015

in collaboration with:

and endorsed by:

San Francisco Bay Area Association of Diabetes Educators

in collaboration with:

This comprehensive four-day course, offered over two weekends, is for all health professionals who face diabetes in practice. The goal is to update your understanding of the complexities of diabetes care, and learn effective approaches to educate those affected by diabetes. This is an exciting, one-of-a-kind program with a solid history. It is an ideal program if you want to enter the dynamic and rewarding field of diabetes education and management.

The first weekend of the program is primarily lecture and case study discussions describing the fundamentals of diabetes management. The second weekend focuses on effective educational principles & behavior change strategies.

FIRST WEEKEND TOPICS INCLUDE:

- *Diabetes Overview, Classification, Diagnosis, Management goals*
- *Medical Nutrition Therapy*
- *Physical Activity & Exercise Recommendations*
- *Pharmacological Management*
- *Acute & Chronic Complications*

SECOND WEEKEND TOPICS INCLUDE:

- *Teaching & Learning Principles, Helping People Want to Learn*
- *Psychosocial Assessment and Considerations*
- *Unique Diabetes Management in Kids, Pregnancy, Elderly*
- *Interactive Learning Labs & Role Playing*
