

Are you taking the CDE Exam this fall? Then Join Us Today. *Space is limited.*

Webcast Dates: October 2, 9, 16, 23, 30, 2014.

Time: 11:30 - 1pm (PST) Earn 13.85 CEs

**Price: \$239 for all 5 Live Webcasts + 7 bonus online courses
(Includes 100 practice computerized test questions)**

Speaker: *Beverly Thomassian, RN, MPH, BC-ADM will march you through the critical content to prepare for the CDE Exam. Beverly has taken and passed the CDE Test 5 times over the past 20 years. Plus, she is a working educator and knows the critical content diabetes educators need. As President of [Diabetes Education Services](#), Beverly believes in your success!*

Can't make it live to all the sessions?

No worries. All sessions will be available to registered users in your Online Student Center within hours after the live webcast. Plus, each session comes with a down-loadable handout and an online resource page, crammed full of info. In addition, we are including 6 additional online courses, to make sure you have access to the critical content you need. You can attend live and review the live webcasts and online courses as many times as you like through December 31, 2014.

Each session will include:

A fast-paced review of concepts and content needed to succeed as a certified diabetes educator. Sample test questions and a question and answer period will be provided each session.

Session Topics and Dates

1. Diabetes – Not Just Hyperglycemia – October 2, 2014

Brief introduction to the CDE Exam content and philosophy. Discuss underpinnings of pancreas dysfunction. We compare prediabetes, type 1 and type 2 diabetes and explore insulin resistance and vascular disease.

- Key concepts in pathophysiology of type 1, type 2, and gestational diabetes
- Diabetes Diagnostic Criteria
- Insulin resistance and vascular disease

2. Standards of Care, Treatment of Hypertension and Hyperlipidemia, Pt Assessment – Oct 9

In this session we review goals of care for prevention, management and treatment of diabetes complications.

- Prevention and lifestyle interventions
- National goals and getting to target – Including AACE and ADA Guidelines
- Screenings and vaccinations
- Targeting interventions based on patient assessments

3. Insulin Therapy – From basal /bolus to pattern management – October 16, 2014

This course reviews effective use of insulin therapy to improve glucose control. Learn how to look at glucose patterns and determine appropriate insulin adjustment strategies. Formulas to calculate basal bolus insulin therapy based on national guidelines will be included.

- Using basal/bolus insulin therapy to improve glucose control
- Glucose patterns and adjustment strategies
- Incorporating national guidelines into practice

4. Meds for Type 2 - October 23, 2014

This course highlights the key elements of the Medication Guidelines by AACE and ADA. We will explore clinical factors to consider when determining the best strategy to improve glucose control in patients with type 2 and discuss new medications.

- Describe the main action, dosing and side effects of the different classes of diabetes medications
- Highlight the key elements of the Medication Guidelines by AACE and ADA.
- Clinical factors to consider when determining the best strategy to improve glucose control

5. Exercise, Nutrition Therapy, Getting Ready for the Exam – October 30, 2014

This course reviews the latest nutrition guidelines and strategies to individualize this information based on the patient assessment. We will review exercise guidelines incorporating ADA Guidelines. Finally we will conclude with strategies to prepare for CDE Exam

- New nutrition guidelines
- Individualized approaches medical nutrition therapy
- Exercise - Benefits, guidelines and strategies
- Preparing for success on CDE Exam

[Register Now](#)
