What did you think about the length of day two?

Too short About Right Too long Behavior Δ too long

What did you think about the length of day three?

Too short About Right Too long

Which part of days two/three was most useful to you?

insulin/meds adjustment

Do you have any additional suggestions or ideas that may help us improve day two and three?

Would have preferred to see Behavior Δ counseling, then practice it.

Thank you very much for your dedication to diabetes education and care.

Did not attend plant based wkshp because of extra cost + the lateness of the day (10 hr day is too long).
