CBDCE Handbook Checklist 2026

Yes No

☐ ☐

1. As a clinical psychologist, registered nurse, occupational therapist, optometrist, pharmacist, physical therapist, physician, podiatrist, master certified health education specialist, certified clinical exercise physiologist, registered dietitian, registered dietitian nutritionist, or registered PA, is your license, certification or registration current, active and unrestricted?

OR

Do you hold a minimum of a master's degree in social work from a United States college or university accredited by a nationally recognized regional accrediting body?

OR

If you do not meet either of these, you are encouraged to investigate CBDCE's Unique Qualifications Pathway. Please visit our website for more information on that pathway.

☐ ☐

2. Has your practice experience occurred within the United States or its territories?

☐ ☐

3. Has all your practice experience occurred since you met requirement #1 above?

☐ ☐

4. Do you have a minimum of 2 calendar years (to the day) of practice experience since you received the license, registration or advanced degree as outlined above or are you using a Master's degree in a health-related field as a waiver for one of the two years?

☐ ☐

5. Have you accrued 1000 hours of practice experience in diabetes care and education (DCE) within the last 5 years?

☐ ☐

6. Do you have a minimum of 20% (or 200 hours) of the 1000 hours of DCE practice experience accrued within the past year?

☐ ☐

7. Does your practice experience include at least some or all in the DCE process: assessment, education plan, interventions, ongoing support, monitoring and communication of participant progress, documentation, and development of DSMES services/administration?

☐

8. The Examination Content Outline (ECO) identifies what is covered on the Examination. Reminder that regardless of discipline, knowledge (and the ability to apply that knowledge) is necessary across all areas of the ECO. Have you reviewed the ECO and assessed your knowledge across the ECO?

☐

9. Have you completed (within the past 2 years) a minimum of 15 hours of continuing education activities** applicable to diabetes and provided by or approved by a provider on our List of Recognized Continuing Education Providers?

If the answer to any of the above questions is "no", you are not ready to apply for the Certification Examination for Diabetes Care and Education Specialists.

Applying to take the CDCES Exam

At the time of your online application, you will receive:

- ▶ On-line notification of either approval
- ▶ Or that you have been selected for audit
- ▶ Audit required info:
 - ▶ Licensure
 - ▶ Documentation of Professional Practice Experience –
 - ▶ A journal of weekly hours of providing DSME
 - ▶ Supervisor to verify
 - ▶ CE course verification
 - ▶ Employment verification signed by supervisor

Test Taking Window

- ▶ The exam is administered on an ongoing basis
- ▶ Once application approved, candidates must schedule their testing appointment within a 90-day window on a date of their choosing
 - ▶ schedule an appointment to take the examination on a first-come, first-served basis through CBDCE Online scheduling system
- ▶ See application booklet for more details

CDCES Live Remote Proctoring (LRP)

- ▶ Candidate uses own computer from home.
- ▶ A compatibility check of the computer's audio/video, webcam and system is required prior to scheduling.
- ▶ The candidate must have a computer with a web camera that can be moved to display the entire room, a microphone, and internet connection to download the PSI secure browser.
- ▶ Calculator built into program

Live Remote Proctoring (LRP) is now available for the CDCES exam! Candidates have the convenience and flexibility of taking the CDCES exam by either testing at a PSI Test Center or by LRP.

2026
CERTIFICATION
EXAMINATION
for
Diabetes Care and
Education Specialists
Handbook

<https://www.cbdce.org/apply-and-schedule>

CDCES Live Remote Proctoring

- ▶ **Breaks:** You are **NOT** allowed any breaks during your LRP exam session.
- ▶ **Identification:** You will be required to take a picture of yourself via the webcam. You will also be required to show via webcam your photo ID.
- ▶ **Room Scan:** You will be required to perform a 360° scan of your testing room. Room must be free of study materials, papers, reference materials, etc.
- ▶ **Calculator:** The LRP platform has a calculator built-in in the lower left-hand corner of screen.
- ▶ **Communicating with your proctor:** will be conducted via chat during the testing session.
- ▶ **Results will pop up on screen upon completion.**

When will I get my results?

- ▶ You will receive your test results the same day at testing site or if using remote proctoring.
- ▶ You can retake the test as many times as needed
- ▶ Cost –
 - ▶ 1st time \$350
 - ▶ Renewal - \$250

Scoring the Exam

- ▶ Reported as raw and scaled scores
 - ▶ Raw score: number of right answers
 - ▶ Scaled score: statistically derived from the raw score
- ▶ Total score determines pass/fail and is reported as a scaled score ranging between 0 and 99
- ▶ To pass: 70 scaled score units

CDCES Exam First Time Pass rates

2011 - 65%

2012 - 63.5%

2013 - 67 and 69%

2014 - 66 and 67%

2015 - 62 and 64% (test updated)

2016 - 67%

2017 - 66%

2018 - 67%

2019 - 70%

2020 - 2022 67%

2023 - 70%

Table 1. Examination Statistics - July 1, 2024 - June 30, 2025 - Pass Rates by Testing Modality

Candidates Testing - First Time: July 1, 2024 - June 30, 2025	Number Tested	Pass Rate
At a Test Center	1123	64%
Live Remote Proctoring	362	62%
Total: First Time Candidates	1485	63%

This is a challenging exam!

SO YOU DIDN'T PASS CDCES EXAM - YET?

Join Coach Bev to Regroup & Reignite your Confidence!

FREE Webinar (No CEs)

Recorded & Ready to Watch

www.DiabetesEd.net

Not passing the CDCES exam can feel disheartening—but you are not alone. Over 30% of healthcare professionals don't pass the CDCES exam on their first try. Plus, this one setback doesn't define your potential or your ability to succeed.

Join Coach Bev for this *free, supportive webinar* designed to help you regroup, refocus, and reignite your confidence. Bev will share practical tips, common pitfalls, and an action plan to boost your readiness for next time.

Exam Details

- Questions are linked directly to a task or tasks.
- Each question is designed to test if the candidate possesses the **knowledge necessary to perform the task or has the ability to apply it to a job situation.**
- 25 of the 175 questions are new - but are **not** counted in the determination of individual examination scores.
- Score based on 150 questions

Exam Content - Assessment

Assessment (37)

- Physical and Psychosocial (12)
- Self-Management Behaviors and Knowledge (15)
- Learning (10)

- I. Assessment (37)**
- A. Physical and Psychosocial (12)**
1. Diabetes-related health history (diagnosis, duration, symptoms, complications, treatment, comorbidities, healthcare utilization)
 2. Diabetes-specific physical assessment (Dietetics, site inspection, laboratory, etc.)
 3. Social determinants of health (economic, living situation, healthcare access, social support, and food/housing insecurity)
 4. General health history (family, medical, mental health, substance use, surgical, allergies and medication)
 5. Diabetes measures and other laboratory data
 6. Mental health/wellbeing (adjustment to diagnosis, coping ability, etc.)
 7. Considerations related to diabetes self-care practices (language, physical language, cultural, spiritual, family/caregiver dynamics, fears and myths, life transitions, etc.)
- B. Self-Management Behaviors and Knowledge (15)**
1. Current practices
 2. Eating habits and preferences
 3. Activity habits and preferences
 4. Medication practices and preferences (prescription, nonprescription, complementary and alternative medicine)
 5. Monitoring and data collection (glucose, ketones, weight, dietary intake, activity, etc.)
 6. Use of technology (monitors, smart delivery systems, apps, online education, patient portals, etc.)
 7. Risk reduction of acute and chronic complications
 8. Problem solving
- C. Learning (10)**
1. Goals and needs of learner
 2. Readiness to learn and change behavior
 3. Preferred learning styles (audio, visual, observational, psychomotor, individual, group, etc.)
 4. Literacy, numeracy, health literacy, and digital literacy
 5. Considerations related to learning (developmental stage, physical abilities, language preferences, cultural, spiritual, psychosocial, economic, family/caregiver dynamics, learning disabilities, etc.)

Exam | Care and Education Interventions

Care & Education Interventions (105)

- Disease Process & Approach to Treatment (22)
- Individualizes Education Plan (17)
- Person Centered Education on Self-Care Behaviors (58)
- Evaluation, documentation and follow-up (8)

- B. Care and Education Interventions (105)**
- A. Disease Process and Approach to Treatment (22)**
1. Pathophysiology including biochemical pathway (glucose homeostasis)
 2. Risk factors and associated risk factors
 3. Lifestyle management (activity, food, sleep, and stress)
 4. Psychological approaches and behaviors
 5. Treatment goals (glycemic metrics, blood pressure, lipids, risk reduction, quality of life)
- B. Individualizes Education Plan (17)**
1. Needs assessment (assessment, collaboration with patient and education, diabetes and care team)
 2. Needs assessment method
 3. Self-Management
- C. Person Centered Education on Self-Care Behaviors (58)**
1. Nutrition Principles and Guidelines
 2. Diabetes Self-Management Skills and Building of Habits and Behaviors (nutrition, exercise, medication, monitoring, etc.)
 3. Carbohydrates (types, food sources, sugar alcohol and substitutes, carbohydrate counting)
 4. Fat types, food sources
 5. Protein (types, food sources, meal planning)
 6. Alcohol (types, food sources, meal planning)
 7. Food and medication integration (medication timing, meal timing, etc.)
 8. Food and medication interaction (fat, ingested, health claims, etc.)
 9. Weight management
 10. Dietary and herbal supplements
 11. Special considerations (food allergies, food sensitivities, gastrointestinal, other chronic conditions, surgery, before to chronic, etc.)
- D. Physical Activity**
1. ADA and American College of Sports Medicine recommendations
 2. Benefits, challenges, and safety considerations, and exercise (heart rate, frequency, intensity, time, and type)
 3. Adaptation of resources, food, water, medication for personal and environmental factors
- E. Medication Management**
1. ADA Expert Committee for the Study of Diabetes (EXPERT) guidelines
 2. Medication (class, action, administration, side effects, contraindications, etc.)
 3. Medication selection (individualized patient, glucose efficacy, impact on weight, time and duration of diabetes, etc.)
 4. Medication adjustment
 5. Insulin delivery systems
 6. Insulin management
 7. Monitoring and management
 8. Glucose device selection, use, testing techniques, metrics
 9. Ketones
 10. A1C
 11. Hypoglycemia
 12. Sleep
 13. Lipids
 14. Safety health

Exam | Care and Education Interventions

Care & Education Interventions (105)

- Disease Process & Approach to Treatment (22)

Exam Content – Standards & Practices

Standards & Practices (8)

- ▶ National Standards for Diabetes Self Management Education and Support
- ▶ Diabetes Prevention Program
- ▶ Practice Standards
- ▶ Advocate
- ▶ Evidence-based care and education
- ▶ Consider Social Determinants of Health
- ▶ Inclusion, Diversity, Equity

III. Standards and Practices (8)

- A. Describe the current National Standards for Diabetes Self-Management Education and Support (NDSMES)
- B. Describe the National Diabetes Prevention Program Standards (National DPP)
- C. Apply practice standards (AACLP, ADA, Endocrine Society, etc.)
- D. Develop population health strategies
- E. Collaborate with other healthcare professionals to advance team-based care
- F. Advocate for people with diabetes access to medications and supplies, care in institutional settings, policies, etc.)
- G. Promote primary and secondary diabetes prevention strategies in at-risk individuals and populations
- H. Promote evidence-based care and education
- I. Recognize the impact of disparities (economic, access, gender, ethnicity, geography, etc.)
- J. Incorporate principles of diversity, equity, and inclusion

Step 5: Review Articles to Prepare for CDCES Exam

Coach Beverly's Diabetes Cheat Sheets

Our Diabetes Cheat Sheet page delivers concise, practical tools to support your clinical practice and exam preparation. Updated annually in line with the latest ADA Standards of Care and current evidence. It includes clinical references, medication and exam study sheets, pocket cards, diabetes technology resources, nutrition guidance, person-centered coaching tools, patient teaching handouts, and covered diabetes apps—all organized for quick, easy use.

[Check Out Our Entire Catalog of Diabetes Cheat Sheets](#)

ADA Standards of Care 2026

This yearly publication by the American Diabetes Association outlines the current goals of care based on the latest research for diabetes management. This is one of the most important guidelines to read as a Certified Diabetes Care and Education Specialist.

[Summary of Revisions: Standards of Care in Diabetes 2026](#)

Taking the Exam

- ▶ Questions
- ▶ Answers
- ▶ Pitfalls

Keep it Person Centered

- ▶ Focus on psychosocial needs and social determinants of health.
- ▶ Start where the participant is at.
- ▶ Keep the participants characteristics in mind (age, type of diabetes, etc.)
- ▶ We are supporting efforts toward behavior change.

Increase success

- ▶ If the answer you wanted isn't there – Pivot, breathe and readjust.
- ▶ Try not to overthink question/answers.
- ▶ Make sure that the answer you choose fits the situation.
- ▶ Focus on national goals and avoid using your work setting's goal.

Take a Practice Test – Learn how to “work” test questions

- ▶ Weed through the details
- ▶ Make sure you REALLY understand key intent of question
- ▶ Find the stem
 - ▶ Identifies key intent of the question
- ▶ Read all the options or answers
- ▶ Eliminate obvious wrong answers
- ▶ Select **BEST** option

Look for Clues in The Answers

- ▶ Answers with the following words are usually **incorrect**: always, never, all, none, only, must, and completely
- ▶ Answers with the following words are usually **correct**: seldom, most, generally, tend to, probably, usually

Getting to the Right Answers

- ▶ Do not leave any answers blank
- ▶ Look for clues in the question
- ▶ Don't get lured in by juicy answers
- ▶ Avoid imposing your life experience into the question/answer
- ▶ Keep breathing – Get up and move
- ▶ Test anxiety – have a plan on how to address
- ▶ Work even simple math problem on scratch paper

Sample Question -1

- ▶ A patient is admitted to the hospital with elevated glucose levels with a strong family history of diabetes. She is started on fluid replacement and is placed on a clear liquid diet. Her father is in the room and is very concerned. Which of the following would suggest a diagnosis of new onset type 1 diabetes vs type 2 diabetes?

- A. Hyperglycemia
- B. Polyuria
- C. Ketosis
- D. Polydipsia

Sample Question 2

- ▶ MJ has type 1 diabetes and wants to know the possible complications that can result from hyperglycemia during the first trimester of pregnancy. Which of the following complications can result from 1st trimester hyperglycemia?

- A. macrosomia
- B. vascular defects
- C. shoulder dystocia
- D. spina bifida

Vignette Style Question

- ▶ Read the following vignette to answer the next 3 questions.
- ▶ A 47 yr old man with newly diagnosed type 2 diabetes and hypertension. Additional known information.
 - ▶ Married, with 2 teenagers
 - ▶ Professor with a BMI of 32
 - ▶ Started on Metformin 500mg BID
 - ▶ Father died of kidney failure secondary to diabetes

Vignette Style Question 1

- He says finding time to exercise is challenging due to his work schedule. Using the transtheoretical model, what stage of change is he in?
- A. Contemplation
 - B. Cost vs. Benefit
 - C. Precontemplation
 - D. Denial

Vignette Style Question 2

- He requests information about healthy eating. Which meal planning approach best suits this individual until he can see a registered dietitian?
- A. Very low-calorie diet
 - B. Eliminate all concentrated sweets
 - C. Eat 3 meals a day with snacks in between
 - D. Plate Method

Sample Question 3 – Carb Counting

JL uses an insulin pump and is carb counting using exchange list. A typical breakfast includes: ½ banana, 1 cup of milk, 2 tablespoons almond butter and 1 piece whole grain bread. LS's insulin to carb ratio for breakfast is 1:12, for lunch and dinner it is 1:15. Based on this, how much insulin does LS need for breakfast?

- A. 3.5 units
- B. 3.8 units
- C. 3.0 units
- D. 2.8 units

Vignette Style Question 4

KL is 72 years old with a 10 year history of type 2 diabetes. KL's has a BMI of 24.6, A1C of 7.3% and LDL cholesterol of 72 mg/dL. GFR is 62 and UACR is less than 30 gm/g. Has a history of hypertension. Current meds for diabetes include metformin ER 850mg BID, sitagliptin (Januvia) 25mg. Based on the ADA Standards of Care, what is the next best action?

- A. Start a SGLT-2 inhibitor to lower A1C and preserve renal function.
- B. Determine KL's A1C goals and explore social determinants of health.
- C. Stop sitagliptin and suggest initiation of a GLP-1 Receptor Agonist to reduce risk of CV disease.
- D. Refer KL to a RD/RDN to help get A1C less than 7%.

Sample Question 5

Metformin is an antidiabetic agent different than that of sulfonylurea drugs. Some features of the drug are that it:

- Stimulates insulin secretion and increases hepatic glucose production.
- Causes hypoglycemia
- Lowers hyperglycemia in persons with diabetes, but does not lower blood glucose levels in people without diabetes.
- Results in weight loss and can cause kidney damage.

Knowledge = Confidence

- ▶ Most important aspect of test taking
- ▶ Knowing the content will improve your confidence
- ▶ As you study your knowledge base expands

CDCES / BC-ADM Success Page

Melissa is a Registered Dietitian Nutritionist based out of North Miami. She is most passionate about using her Medical Nutrition Therapy coupled with Motivational Interviewing skills to help our most vulnerable populations. Since she became a Dietitian and began working with her community, she knew she would pursue a specialization in Diabetes Management to maximize her impact and help those who need it most. She is very excited to join the CDCES community of providers!

Melissa Dolan, MS, RDN, LD/N, CDCES

I want to thank you all for the support you give to Diabetes Educators, but also to those of us preparing for the CDCES Exam. I truly want to THANK YOU for that! I just passed my exam on June 1st, 2023. I appreciate all that you do to simplify the updates and new evidence based practice information. The cheat sheets you provided were the one thing that I would say helped really reinforce the information for me. I also watched the boot camp videos. I had less stress because of your supportive site and that helped so much! I am so honored to be able to make Diabetes easier for patients everyday.

Carolyn Fletcher, BSN, RN, CDCES
